

NEWS RELEASE

November 11, 2008

"It All Starts With a Handshake." AmCon Tradeshow is a Success For Pridgeon and Clay.

Pridgeon and Clay recently participated as an exhibitor at the AmCon Tradeshow. The show was held at the DeVos Place, in downtown Grand Rapids, on September 17th & 18th earlier this year.

AmCon is a Contract Manufacturing Expo with nationwide shows. Its purpose was to provide manufacturing companies an outlet in which they can showcase their work and services to potential new clients. Most people attending the AmCon Shows are currently in need of contract manufacturing services and often come to the show ready to do business.

Pridgeon and Clay prepared for the show by introducing a newly revamped exhibit booth complete with updated photos and newly e-coated and powder-coated portfolio samples.

As a direct result of AmCon, P&C generated over 17 new contacts for our Laboratory Services and R&D Center. Three of these have become new clients and we are currently quoting for many of the others. Manufacturing gained over 8 new contacts and are currently quoting for several of these companies.

Pridgeon and Clay was very pleased with the success of the AmCon Show and looks forward to participating in more tradeshows in the future.
